

November

Welcome to the November edition of the Courtenay Chronicles! Boy, oh boy, oh boy, oh boy, oh boy wasn't last month a busy one! What with angel Awareness Day, the Complimentary Health Festival at Ilkley, workshops at Low Burnfoot and the Samhain elemental Magick retreat (of which more later) I barely knew when I was coming or going! Still mustn't complain (I keep telling myself) as work at the moment is a precious thing which we must all be grateful for! November is looking a little more modestly paced though still busy with trips to Germany and London as well as work at home and closer to home to look forwards to, not to mention all those orders I am constantly trying to catch up with from our online shop! And Christmas just peeping round the corner too ... may the Goddess help us all! So ... what can I tell you about November well ...

The Quest for the Holy Grail

This month, the first month of a new energetic year, kicks off with a new series of channelled messages entitled The Quest for the Holy Grail! This series of channellings will come from the legendary Knights of the Round Table, each one offering guidance on how the Holy Grail within each and every one of us can be found and worked with to help advance

us on our personal spiritual path and quest for Ascension. The first channelling, from Sir Bedivere, offers a little insight into the energies of the New Year and how we can begin working with them now. An exclusive clip of this channelling, to whet your appetite, can be seen at the end of this newsletter, the rest can be found on the channellings page of my website www.edwincourtenay.co.uk and is free to download.

The Retreat that was and the Retreats that will be!!

Our Samhain (that's Halloween to you) Elemental Retreat was hugely successful with truly surprising results! On Samhain day the participants of the retreat and myself performed a ritual by Hartley Burn river (at the bottom of our garden) to clear and cleanse all energies that were preventing us from expressing our natural magick! The day after the ritual the heavens opened and Hartley burn swelled to twice its size, as it is often prone to do when we have a down pour. What we didn't know, until days later was that the face of Coventina – the goddess who the river is dedicated to – had been smashed by a dislodged rock during the torrential out pouring

and was found days later by our neighbour on the river bank down the way. Upon asking Spirit what this meant they told me that it was an indication of just how powerful the ritual had been, the energy of our magick – flooding through Coventina’s Icon – causing it to explode like a circuit breaker, the Icon (made of plastic) being too weak to hold the massive power channelled to the ritual via the Goddess! Bad news for our much loved Icon but great news for all those participants on the retreat as it’s a good indication that the ritual worked! Powerful magick indeed. Needless to say the hunt is now on for a sturdier Icon to represent our Lady Coventina.

Next year Andrew and I are planning a Midsummer Magick retreat exploring the Fairy Folk and Elementals and the Mysteries of the Other World in Northumbria and the surrounding area! We are also planning with Rosemary Stephenson a Cornwall Retreat (earlier in the year) in the area of Boscastle and Tintagel following the Arthur and the Grail Knights theme. Anyone who would like to register their interest in either of these retreats and be sent more details when we have them should email Andrew at shop@ipssissimus.co.uk

Talking of world Peace ...

The amazing ladies at www.soundessences.com have come up with some incredible new products to help us with our spiritual journey. First are a set of seven Energy Sprays each one related to the different Chakra's. Made from sacred waters drawn from seven different sacred sites in combination with crystals, the healing power of sound, the magickal properties of colour and healing intention these little bottles are powerfully packed

with mighty spiritual force to help you and your environment. Earlier this year I made a visit to Sound Essences and tried out these incredible creations and shared my experiences of them with their creators, these experiences have been transcribed and are available on request from Sound Essences as a print out should you want to find out more about their remarkable powers. The result of this experience was the birth of another product, Peace Bottles, which are tiny green vials of liquid created from water drawn from Chartres in France. Although small these bottles can help with the resolution of conflict and encourage religious harmony and the unification of fractious relationships. These tiny bottles have been created so that they can be taken all over the world and planted in the ground, hidden in tree's, buildings, parking areas, nooks and crevices so that their energy can start to harmonize the conflict in these areas. For more information on these and other products visit www.soundessences.com

And finally ...

Now that we are firmly in the dark half of the year let's remember to draw on the light within when we find ourselves in need! The light of the soul can guide us through the darkness as can the light of the Earth that resides now in the roots of the dormant sleeping trees and flowers. It's all too easy to become exhausted during this time and all too easy to forget that there are always sources of love and light to which we can

turn to for guidance and help. As the patrons of the new energetic year are Lady Nada (Mary Magdalena) the Christ and the Maha Chohan (the Holy spirit) there really is no one better to reach out to for help. Happy November my dears and the brightest of blessings for this often the darkest of months.

Quest for the Holy Grail Channelling

My name is Sir Bedivere, Knight of the Round Table, Quest Knight of the Holy Grail and loyal and loving servant of Arthur the greatest King of Albion and of the Divine Lord of all light and life. I am the first of my brothers to step forwards from the realm of heaven, from our eternal rest and sleep there, in order that I might mark the way of understanding for all those now who seek the Holy Grail.

For the Holy Grail is much more than man might imagine it to be and much more significant too in the Ascension of man's planet Earth and mankind themselves. For the Holy Grail is much, much more than just a cup, than just a symbol of communion. Much, much more than just a relic of a holy man and his acolytes, for the Holy Grail is a symbol and a mystery. A power and a truth, it is the way that leads to unity and the return to glory and divinity for mankind, it is the code and key that will.....
